

Residential Facility Administrator Services

Professional leadership for group homes and assisted living communities

Care Resources Inc. provides qualified administrator services for group residential settings, assisted living communities, residential facilities for groups, and other supported-living environments — operational leadership, regulatory oversight, staff supervision, resident-service coordination, and quality management, tailored to your facility's classification and approved scope.

SCOPE OF SERVICES

- Facility operations, administrative systems, and staffing coverage
- Regulatory compliance, license conditions, and inspection readiness
- Resident admissions, service agreements, and individualized service plans
- Resident rights, dignity, privacy, and grievance resolution
- Recruiting, supervision, training, and competency oversight
- Health, safety, infection prevention, and emergency preparedness
- Medication-system oversight within the facility's permitted scope
- Quality assurance, auditing, and performance-improvement plans

ENGAGEMENT OPTIONS

- Full-time facility administration
- Interim or temporary administrator coverage
- Startup and pre-licensing administrative support
- Administrator transition and operational stabilization
- Compliance monitoring and mock-survey preparation
- Policy and procedure development
- Corrective-action and deficiency-remediation support
- Facility-owner advisory and management consultation

SETTINGS WE SERVE

- Residential facilities for groups
- Assisted living communities
- Senior group residences
- Memory-care environments
- Adult residential care homes
- Supported-living residences
- Private residential care settings
- Specialized residential programs

ADMINISTRATOR QUALIFICATIONS

- Current administrator license or credential when legally required
- Experience in healthcare, residential services, senior care, or facility management
- Working knowledge of medication systems, emergency preparedness, and QA
- Current background clearance, health screening, and required training records

WHY CARE RESOURCES

- Locally owned and Las Vegas-based since 2021
- Compliance-first documentation kept in your systems of record
- Clear scope boundaries — we support, never replace, licensed professionals
- Organized transition summary at the close of every engagement

Care Resources Inc. provides administrative and operational support services only and does not provide medical, nursing, legal, or regulatory advice. Services are delivered within each facility's licensed classification and approved scope, under a signed written agreement.
